Pikler

UK ASSOCIATION

ANNUAL CONFERENCE 2019

Saturday 18 May

10:00 - 17:00

Pikler Principles, Play and a Kindergarten near Munich

What can we do to provide an environment in which every individual child develops their unique interests while preserving the joy of doing?

Karsten Czimmek

Director of the Montessori Kindergarten, Niederseeon, Germany
Founding and Board Member of Wege der Enfaltung e.V. Munich,
& Pikler Association Europe e.V.

After the success of last year's conference, we are returning to **Goldsmiths University of London** again this year.

More Details

The Kindergarten in Niederseeon, about 30 km east of Munich, is 25 years old. Since the mid-1990s they have worked closely with **Anna Tardos** and the **Pikler Institute** in realising their common pedagogical principles: *the free unfolding of movement and play on the basis of warm and supportive relationships with the educators*.

In his keynote speech, Karsten Czimmek will speak about how, as the children grow and increasingly experience how play becomes serious and takes on the quality of 'work', keeping their joy of doing alive is the most valuable gift we could give them.

The afternoon will be spent in workshops and the day will end with a plenary session for all.

We do hope you will be able to come and join us for what promises to be another thought-provoking and stimulating day.

UPCOMING EVENT

Sensory Awareness with Peggy Zeitler

We are planning a weekend of Sensory Awareness with Peggy Zeitler. We were hoping to bring this to you this year, but are now looking at May 2020.

WATCH THIS SPACE

Sensory Awareness, as presented by Peggy, is one of the foundations on which the European Pikler Training is based. It encourages a truer sense of self and is extremely helpful to those who work with the young child.

We'll bring you more details as we have them and look forward to bringing this and other workshops to you over the coming months and years.
